ISPECTAL TO THE APPEAL. Washington, December 13.—Representative Caldwell, in the House, and Senator Whitthorne, in the Senate, today introduced a bill for the improvement of the Cumberland river, in order to facilitate the building of the dam provided for by the bill introduced on Saturday by Representative McMillin. The bill appropriates \$150,000 for that portion of the river above Nachville, and \$70,000 to be expended below that city. THE TARIFF FIGHT in the present Congress promises to be very lively and interesting. In anticipation of the Morrison bill, which is to be brought up the latter part of this week, the Randell Democrats were to have met tonight at the apartment of McAdoo to outline their course of action. This meeting was, however, postponed natil tomorrow in order to allow the Republican members of the Ways and Means Committee and other prominent tariff men belonging to that party to

HOLD A CONFERENCE to settle what they should do. This meeting was held at the rooms of Mr. Hiscock. The plan of proc dure decided upon is believed to be as follows: An effect will be made to subatitute the Randall tariff bill for the Morrison bill, and the Republicans will support the Randall men in this effort. If Randall can carry as many Democrats with him as he did last session and the Republicans carry out their part of the contract, the probabilities are that the Morrison bill will

not be heard from again.

There is a very well defined rumor here that

IMPORTANT CABINET CHANGES will shortly be announced. As has been indicated in these dipatches before, Secretary Manning is considering the advisability of resigning on account of his health. Attorney General Garland may also resign and accept the Sena crahip from Arkansus two years hence. Another member of the Cabinet, it is possible, may also tender his resignation short y, although his name cannot be divulged as yet. This information is obtained through channels worthy of cradence, although not exactly authoritative.

It was decided to oppose the Morrison bill to the bitter end, and it also appears that the Republicans are not in favor of the Randall bill. There some talk, however, of a substitute bill to be introduced by Mr. Hiscock. The programme of procedure when the Morrison bill comes up, which will most probably be on Saturday, will be very similar to that of last see-

Washington, December 13.—A number of persons of high distinction in official life, and hundreds of society people of note, were scattered through the large audience which greeted Bar-rett at Albaugh's Opera House this evening in his revived tragedy, Riensi. Among the occupants of nexes were the President and Mrs. Cleveland, with half a dozen lady friends, escorted by Col. Lamont; the Chief Justice and Mrs. Waite, and General and Mrs. Sheridan. The stage mounting and all the appointments of the play were magnificent. The plaudits of the audience at each of the five intermissions were long and prolonged, and the verdict upon the manner in which the leading character was presented was one of hearty approval.

Young of Washington, John B. Day of New York, and John J. Rodgers of Philadelphia, of the National League, and Zeen Phelps of Louisville, C. B Byrne of Brooklyn, and Walter Wattons, secretary, of New York, of the American Association. The committee will be called upon to settle a number of important questions that have been agitating the minds of the baseball men throughout the country ever since the season closed. An effort will be made to change rule 6, which permits a club to jump from one association town to another during the time between playing seasons. The proposal is to change the rule so that when a club becomes a member of one association it cannot change without the consent the other members. The matter

of double contracts signing will also be considered by the committee, together with the case of a number of men who have been blacklisted. As soon as the committee was organized a committee from the International Association presented several cases for consideration.
